

KTH Complex Fluids group

This is the website of our academic research group at KTH, Sweden.

The website is live at: <https://kth-complex-fluids-group.github.io/outilab/> (<https://kth-complex-fluids-group.github.io/outilab/>)

This website is powered by Jekyll and some Bootstrap, Bootwatch.

Outilab Website Management Guide

This guide provides step-by-step instructions for editing and managing the Outilab website hosted on GitHub Pages.

Step 1: Clone the Repository

To get started, clone the repository and navigate into the project directory:

```
git clone -b gh-pages git@github.com:KTH-Complex-fluids-group/outilab.git
cd outilab
```

Step 2: Editing Content

2.1 Editing the Home Page

To edit the home page:

```
cd _pages
open home.md
```

- Make your edits to `home.md`.
 - Save your changes.
 - Proceed to **Step 3** to commit and push your changes.
-

2.2 Editing Team Information

To update team information (e.g., members, alumni, etc.):

```
cd _data
```

The following files contain specific team-related data:

File Name	Description
pi.yml	Data about the project responsible/PI.
phd.yml	Details of PhD students.
alumni_msc.yml	Alumni Master students.
alumni_visitors.yml	Visiting PhD students.
alumni_bsc.yml	Alumni Bachelor students.
alumni_members.yml	Alumni lab members.
students.yml	Current Bachelor and Master students.
postdoc.yml	Post-docs in the group.

To edit any of these files:

1. Open the corresponding file: `open .yml`
2. Make your edits.
3. Save your changes.
4. Note: Team member images should be placed in the `outilab/images/teampic/` directory.

Proceed to **Step 3** to commit and push your changes.

2.3 Adding Publications

To add or update publications:

```
cd _data
open publist.yml
```

Add a new publication entry in the following format:

```
title: <Title of paper>
authors: List separated by "and"
url: <URL of the paper>
display: <Display name for the link>
highlight: <Position of group author starting from 1; use 0 if none>
pihighlight: <Negative position of PI (e.g., -1 if last author)>
```

Save your changes and proceed to **Step 3**.

2.4 Updating Defence Dates or Calendar Events

To update student defence dates or group calendar events:

```
cd _pages  
open calendar.md
```

- Make your edits.
- Save your changes.
- Proceed to **Step 3**.

2.5 Updating News

To add or update news items:

```
cd _data  
open news.yml
```

Add a new news entry in the following format:

```
date: <YYYY-MM-DD>  
headline: <Short description of the news>
```

You can include links in the news description using HTML tags like this:

```
<a href="{link}">some text</a>
```

Save your changes and proceed to **Step 3**.

2.6 Updating Group Pictures

To update group pictures:

1. Add new images to the `outilab/images/picpic/` directory.
2. Reference these images in `pictures.md`:

```
cd _pages  
open pictures.md
```

- Add headings, figure names, and references as needed.
 - Save your changes.
 - Proceed to **Step 3**.
-

2.7 Updating Slider Images on the Home Page

To change slider images on the home page:

1. Navigate to the slider images directory: `cd images/slider`
2. Replace any image with a new one (preferably `.png` format).
3. Rename it using the format:

 `home.png` (e.g., `home1.png`, `home2.png`)
4. Save your changes.
5. Proceed to **Step 3**.

Step 3: Commit and Push Changes

After making any edits, follow these steps to commit and push your changes to GitHub:

```
git add *  
git commit -m '{Your descriptive commit message}'  
git push origin gh-pages
```

Notes

- Ensure that all image files are correctly placed in their respective directories (`teampic`, `picpic`, or `slider`) before committing.
- Use descriptive commit messages to track changes effectively.

This README provides a comprehensive guide for managing all aspects of the Outilab website efficiently.
